

SURVEILLANCE

LICENSED PROFESSIONAL INVESTIGATORS

## **SURVEILLANCE**

In support of our corporate and insurance clients, we can provide trained personnel to conduct surreptitious stationary or mobile surveillance. Agents are equipped with technologically advanced video and photography equipment to effectively document the relevant activity of fraudulent claimants, as well as the inappropriate activity of problem employees. Additionally, all surveillance vehicles are equipped with the necessary communication capabilities which enable agents to work in concert if more than one surveillance vehicle is needed.
